Plastic Base
Large plastic base with removable metal spigot. Can be filled with water or sand for additional stability

- Plastic base round

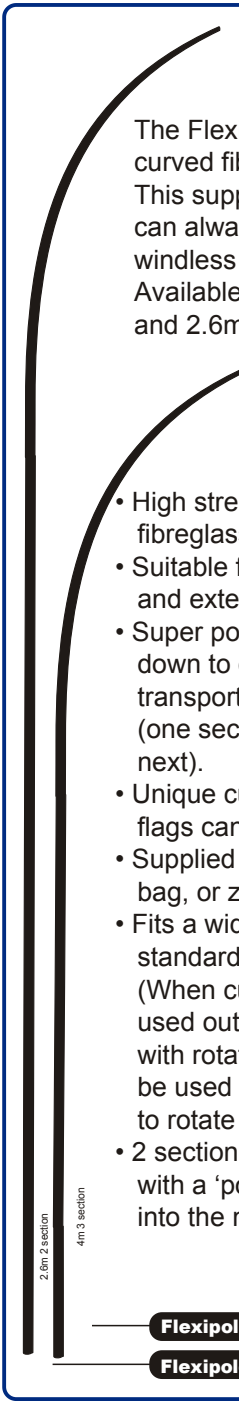

Folding Base
A top quality interior stainless steel foldaway base for easy storage and transportation.

- Interior base folding

Round Base
An attractive spun steel powder-coated black base ideal for trade shows & other indoor displays.

- Interior base round

Flexipole curved
The Flexipole uses a unique curved fibreglass top section. This supports the flag so it can always be read on windless days or indoors. Available in 2 sizes, 4m and 2.6m.

- High strength, lightweight fibreglass construction.
- Suitable for both interior and exterior use.
- Super portable - packs down to only 1.5m long for transportation and storage (one section slides into the next).
- Unique curved top ensures flags can always be read.
- Supplied with drawstring bag, or zip bag for multiples.
- Fits a wide range of our standard mounting bases. (When curved Flexipoles are used outdoors, mountings with rotating spigots must be used to enable the pole to rotate in the wind).
- 2 section pole is supplied with a 'pole adapter' to fit into the mounting options.

2.6m 2 section
4m 3 section

- Flexipole curved 4m
- Flexipole curved 2m

Beachbanner Sections
The sectional version uses a multiple straight fibreglass section with a tapered male into female socket. This is allows for higher and more visible placement of the banners.

- 1500mm Top Section
- 1500mm Mid Section
- 1500mm Bottom Section

Beachbanner straight
The straight version uses a straight fibreglass top section for a more traditional flag or banner display. Available in , 4m and 2.6m.

- High strength, lightweight fibreglass construction.
- Super portable - packs down to only 1.5m long for transportation and storage .
- Fits a wide range of standard mounting bases.

- Flexipole curved 4m
- Flexipole curved 2m
